Members with wood specimens and books for sale

I am interested in expanding my wood collection as funds permit. I collect in the form of transverse slices, commonly known as "tree cookies". I am interested in all woody tree and shrub species, even those not considered commercially valuable. I am looking for slices green or dry about 10-12" (~25 x 30 cm) in diameter; and/or whatever is representative of that species.

I grow trees on my farm and own a small sawmill. I'm really looking for regular users of wood, rainforest species, especially Australian Red Cedar and others, Hoop Pine and a few Eucalyptus, but I can also supply some unusual species to wood collectors. Many of these trees I have planted myself.
