

INTERNATIONAL WOOD COLLECTORS SOCIETY

WOOD SPECIMEN KIT

In response to the requests of wood collectors, the International Wood Collectors Society endeavors to supply wood specimens of 80 species. Prepared specimens measuring 0.5 x 3 x 6 inches are available in kits containing up to 44 specimens. Whether used for studying wood structure or identification, these specimens will prove to be a valuable resource of information to collector, tradesman, craftsman, teacher, or hobbyist alike. Specimens are shipped in a padded cardboard box and are numbered to correspond to the list below. Also included is an eight-page wood identification bulletin with an identification keys and photos.
